

DEADLANDS - Weird West Companion

NEUF / Anglais

Marque : Studio 2 Publishing

Référence : S2P10221

Prix : 24.00 €

Descriptif :

Etat : NEUF

From the High Plains to the canyons of the Great Maze, the Weird West is a mighty dangerous place. Any cowpoke worth his salt knows it's better to have some extra firepower by your side. The same goes for you, Marshal, and you won't do much better than the Weird West Companion!

Insides these twisted pages you'll find new Harrowed Edges, new Arcane Backgrounds like Voodooists and Witches, and a whole passel of relics to put your posse through their paces.

In addition to these extra options for players, we also include some advice on Marshalin' your game, an overview of the big Plot Point Campaigns that made the Weird West what it is today, information on the Hunting Grounds and running adventures in it, famous rascals, and bone-chillin' adventure in the Black Hills called "The Horse Eater."

So round up a couple of brave compadres, Marshal, and get ready to ride out. The Weird West awaits!
