With its history shrouded by wild-eyed ravings and the scrawling of madmen, it was thought that no one would ever know the unholy origin of the house on the hill.

Until now.

The history you tell is one you create. Journey back to the beginning of the horror as you create a unique story told through several generations of families obsessed with the house.

Based on the award-winning Betrayal at House on the Hill, Betrayal Legacy is a unique experience offering you the chance to create the iconic house's story through decisions and actions taken in the game. Once the campaign is complete, you'll be left with a fully re-playable, customized board game.
