Boba Fett. Bossk. IG-88. Bounty Hunters. The very mention of a hunter on your trail is enough to make your blood run cold. They are the galaxy's most infamous trackers and will hunt another person halfway across the galaxy if the credits are right. This Galaxy Guide examines all facets of the most dangerous and possibly most misunderstood group of professionals in the galaxy. Within this volume, players and gamemasters learn the specifics of bounty hunting, from determining "acquisitions" to the specialized equipment that hunters rely on. This guide provides details on some of the more notable hunters operating in the Empire, as well as details for generating bounty hunter player characters, including an introductory adventure.
